kementec PROVIDING IMMUNOASSAY SOLUTIONS

Change Notification

Date: 06-AUG-2026

Change Control Number: CC0094

Change Notification Number: CN0092A

Description of change:	This notification is to inform you of a change in the primary packaging material used for our 10 L and 20 L pack sizes. In order to optimize and streamline our packaging, the containers used for 10 L and 20 L pack sizes will be changed to the same type of jerrycan. These containers are easy to use, durable and can be packed efficiently on pallets. The new jerrycans have undergone full internal evaluation and quality testing is ongoing to verify product compatibility.
The following will be changed:	**Scope of Change:** Primary packaging containers for all products supplied in 10 L (catalog number suffix **"E"**) and 20 L (catalog number suffix **"P"**) pack sizes will be changed. Visual comparison of the current and new containers can be found in **Appendix 1** and **Appendix 2** for 10 L and 20 L containers, respectively. **Product Identification & Catalog Numbers:** The product catalog number suffixes for the impacted pack sizes – "E" for 10 L containers and "P" for 20 L containers – will remain unchanged. *Note: There are no changes to the product formulations, specifications, manufacturing processes, or quality control parameters.*
Implementation date/lot number:	The implementation date for this change is: 09-NOV-2026 *Note: Customers can expect to receive the new packaging materials from this date forward. After the implementation date there will be a period of time when existing stocks of the current packaging materials will be used up. Customers may therefore receive both types of packaging materials during this period.*
Additional information:	**Product Integrity & Quality:** The change in primary packaging material does not impact the quality, functionality, or shelf-life of the contained products. **Feedback / Questions:** Should you have any questions, or need clarification regarding this notification, please contact support@kementec.com or visit our website www.kementec.com.
